## General marking guidance

- All candidates must receive the same treatment. Examiners must mark the last candidate in exactly the same way as they mark the first.
- Mark schemes should be applied positively. Candidates must be rewarded for what they have shown they can do rather than penalised for omissions.
- Examiners should mark according to the mark scheme not according to their perception of where the grade boundaries may lie.
- All the marks on the mark scheme are designed to be awarded. Examiners should always award full marks if deserved. Examiners should also be prepared to award zero marks if the candidate's response is not worthy of credit according to the mark scheme.
- When examiners are in doubt regarding the application of the mark scheme to a candidate's response, the team leader must be consulted.
- Crossed-out work should be marked **unless** the candidate has replaced it with an alternative response.

## How to award marks

### Finding the right level

The first stage is to decide which level the answer should be placed in. To do this, use a 'best-fit' approach, deciding which level most closely describes the quality of the answer. Answers can display characteristics from more than one level, and where this happens markers must use their professional judgement to decide which level is most appropriate.

### Placing a mark within a level

After a level has been decided on, the next stage is to decide on the mark within the level. The instructions below tell you how to reward responses within a level. However, where a level has specific guidance about how to place an answer within a level, always follow that guidance.

Markers should be prepared to use the full range of marks available in a level and not restrict marks to the middle. Markers should start at the middle of the level (or the upper-middle mark if there is an even number of marks) and then move the mark up or down to find the best mark. To do this, they should take into account how far the answer meets the requirements of the level:

- If it meets the requirements *fully*, markers should be prepared to award full marks within the level. The top mark in the level is used for answers that are as good as can realistically be expected within that level.
- If it only *barely* meets the requirements of the level, markers should consider awarding marks at the bottom of the level. The bottom mark in the level is used for answers that are the weakest that can be expected within that level.
- The middle marks of the level are used for answers that have a *reasonable* match to the descriptor. This might represent a balance between some characteristics of the level that are fully met and others that are only barely met.

## Generic Level Descriptors for Paper 4

### Section A

**Targets: AO1 (5 marks):** Demonstrate, organise and communicate knowledge and understanding to analyse and evaluate the key features related to the periods studied, making substantiated judgements and exploring concepts, as relevant, of cause, consequence, change, continuity, similarity, difference and significance.

**AO3 (20 marks):** Analyse and evaluate, in relation to the historical context, different ways in which aspects of the past have been interpreted.

| Level    | Mark        | Descriptor  |

|          | <b>0</b>    | No rewardable material.   |
| <b>1</b> | <b>1–4</b>  | <ul style="list-style-type: none"><li>• Demonstrates only limited comprehension of the extracts, selecting some material relevant to the debate.</li><li>• Some accurate and relevant knowledge is included and presented as information, rather than being linked with the extracts.</li><li>• Judgement on the view is assertive, with little supporting evidence.</li></ul>  |
| <b>2</b> | <b>5–8</b>  | <ul style="list-style-type: none"><li>• Demonstrates some understanding and attempts analysis of the extracts by describing some points within them that are relevant to the debate.</li><li>• Mostly accurate knowledge is included, but lacks range or depth. It is added to information from the extracts, but mainly to expand on matters of detail or to note some aspects which are not included.</li><li>• A judgement on the view is given with limited support, but the criteria for judgement are left implicit.</li></ul>  |

The indicative content below is not prescriptive and candidates are not required to include all the material which is indicated as relevant.</p> <p>Candidates are expected to reach a judgement on how accurate it is to say that that, under President Kennedy, the US approach to the containment of the Soviet threat was clearly different from the approach under President Eisenhower.</p> <p>Arguments and evidence that, under President Kennedy, the US approach to the containment of the Soviet threat was clearly different from the approach under President Eisenhower should be analysed and evaluated. Relevant points may include:</p> <ul style="list-style-type: none"><li>• Kennedy's 'flexible response' envisaged a range of strategies to achieve containment; Eisenhower's approach was dominated by the strategy of 'massive retaliation'</li><li>• Kennedy's initial approach was based on a more confrontational and competitive rhetoric; Eisenhower generally abided by the concept of 'peaceful co-existence'</li><li>• Kennedy's military strategy combined an increase in the nuclear arsenal with a strengthening of conventional forces; Eisenhower focused on the US nuclear capacity as a deterrent</li><li>• Kennedy was willing to pay the cost of more federal money for defence and economic aid; Eisenhower believed that containment should not come at any cost, with nuclear weapons providing 'more bang for the buck'.</li></ul> <p>Arguments and evidence that that, under President Kennedy, the US approach to the containment of the Soviet threat was similar to the approach under President Eisenhower should be analysed and evaluated. Relevant points may include:</p> <ul style="list-style-type: none"><li>• Both presidents were determined to maintain strategic military superiority over the Soviets by increasing the US nuclear arsenal</li><li>• Both presidents were advocates of the use of economic aid to prevent the spread of Soviet influence both in Europe and in areas of decolonisation</li><li>• Both presidents were willing to use brinkmanship as a deterrent against the Soviet threat, e.g. both were willing to use the threat of nuclear war over Berlin</li><li>• Both presidents were supporters of covert operations to advance US policy, e.g. Eisenhower used the U2 spy plane and initiated the Bay of Pigs plan, Kennedy financed counter-insurgency and plots against Castro</li><li>• Both presidents were willing to use negotiation to try to prevent the escalation of tension; both administrations were involved in bilateral diplomacy, summit meetings and nuclear test ban negotiations.</li></ul> <p>Other relevant material must be credited.</p> |
